

Dear Clients

## **DATAHIVE ANNOUNCES A NEW WEBSITE**

We are happy to announce the launching of our brand-new website: DataHive.ca.

A critical review showed us much of the original website was written when explanations were necessary. That isn't the case anymore - - every day client sophistication and industry expectations change in the search for more and improved services.

Our clients look for a comprehensive service, often encompassing much more than data storage. In fact, the demands of twenty-first century technology now include a wide range of services and guarantees.

So, What's New?

Check out how the DataHive.ca home page eliminates the need to search. By identifying one of the nine most sought-after IT icons, viewers need only click on that icon to immediately access the subject of their choice. From there, they drill down to their level of interest.

More important, we hope you will share any suggestions or comments you may have.
